Submission Form: Antifungal Drug Levels

In order to provide the most accurate service, ProtaTek Reference Laboratory has established guidelines for our antifungal drug level assays. Please review the following information and call us if you have any questions.

Sample Acquisition: All patients should be on the current medication for a period of at least 10 days.

DRUG	COLLECT	SHIP
FLUCONAZOLE KETOCONAZOLE ITRACONAZOLE VORICONAZOLE	2mLs (1mL min.) of serum or plasma (EDTA or heparin). Serum: blood should be collected in a RED TOP TUBE, spun down and separated from the clot. SST's should not be used. Refrigerate sample until submission.	Ship samples with cool packs.

Date _____
